GITELCARE.COM

SERVICES

INTERNAL MEDICINE

Comprehensive Internal Medicine services centered around the diagnosis, prevention, and treatment of various adult illnesses. We manage both common & complex illnesses pertaining to different bodily systems, including the cardiovascular, respiratory, gastrointestinal & endocrine systems.

PRIMARY CARE

We offer Direct Primary Care (DPC) services, a modern approach to healthcare that puts you, the patient, at the center of your medical journey. With Gitelcare DPC, you can experience personalized healthcare like never before.

OBESITY MEDICINE

Our program is an all-inclusive, physician-led initiative tailored to guide individuals towards sustainable weight loss & lifelong well-being. This program transcends beyond the typical weight management services by providing personalized & proactive care under the direct supervision of a dedicated weight loss physician.

GLP-1 INJECTIONS

GLP-1 drugs are an effective medication used for type 2 diabetics to help with weight loss & other chronic weight related medical conditions. In some cases, GLPs can be a good option for those who are obese or have a high BMI.

MEET DR. GITELMAKER

Dr. Dimitri Gitelmaker was inspired to help people like his grandfather by overcoming barriers he saw to getting great medical care. His goal is to get his patients to live longer and more fulfilling lives. He specializes in internal medicine, obesity medicine, nutrition and preventive medicine. Dr. Gitelmaker is fluent in Russian & speaks medical Spanish.

“My goal is to find better ways to serve my patients and learn what motivates them. I tailor to my patient needs, get them healthy, and keep them that way!

- Dr. Dimitri Gitelmaker
